INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1951 edition of the Kinston City Directory, which also includes the rural routes emanating from the Kinston Post Office.

Confidence in the growth of Kinston's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Kinston to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Kinston Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments
(Each department beginning with Page 1)

The six major departments are arranged in the following order:—

I. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Kinston, and the name, official personnel, nature and address of each firm and corporation in the city.

II. THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Kinston. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Kinston, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

III. THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department.

51715

In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

V. THE KINSTON RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

VI. THE NUMERICAL TELEPHONE DIRECTORY is the sixth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Kinston.

The Kinston Directory Library

Through the courtesy of the publishers of the Kinston City Directory, a Directory Library was established recently in the offices of the Kinston Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The beginning of what is now a thriving eastern Carolina city was a wilderness settlement and trading post on the banks of the Neuse River, 70 miles from the Atlantic Ocean, in Colonial 1740. Since that time, Kinston has been multiplied many times over, and has become a well-balanced center of varied commerce. The forest trails and water travel of the Colonial days have turned into paved highways and railway roadbeds, and the "trading post" now serves an estimated 140,000 "settlers" in its territory.

The population of the river settlement has grown from a hardy handful early in the 19th century to 18,278 at present. Today Kinston is the seat of government of Lenoir County, embracing 45,913 persons. The growth of Kinston always has been closely tied to agriculture, but now with the continued increase of population in the trade area, a gradually-developing industrial character is to be observed. The city, likewise, has become a permanent retail trading center for eastern North Carolina, and is the largest wholesale distribution point east of Raleigh.

From the basic agricultural work of the early settlers, engaged in for survival, the production—first, of cotton, and later, tobacco—came a broader economic outlook and more prosperity. Today "King Cotton" has lost its autocracy, and the "Golden-Leaf Tobacco" has become the economic ruler.

The rule of the "Golden-Leaf" has been a fruitful one, for $36,390,965 poured into the farmers' purses as a result of sales on the Kinston market in 1950. Kinston's twelve tobacco warehouses provide ample sales space and facilities to accommodate more than 100,000,000 pounds of tobacco. Such a return from a single phase of the agricultural life of Kinston's "settlement" area, when boosted by the progress and return from the variety of other phases, has been reflected sharply in its growth.

Following the establishment of a thriving market, tobacco-processing factories were built, and have taken their place among numerous other industrial establishments to make the river-bank trading post a center of economic wealth. Within the boundaries of Kinston, with its many miles of broad, paved streets, are located producers of clothing and other textiles, building materials, and various types of consumer goods.

A network of improved highways lead out of Kinston into the Coastal Plain like the spokes of a wheel, and two railroads provide carrier facilities for heavy goods and shipments. Electric power, with newly added equipment and facilities, is available to the city's residential and industrial needs and is manufactured in sufficient quantity to supply an excess of more than 40 % above the peak demand at present. There are 56 manufacturing and processing firms located in the city, with nine large wholesale distributors, and over 400 retail stores and service institutions, all banded together to serve the requirements of the ever-growing population.

The economic soundness of Kinston can be attested by the three thriving banks which serve its citizens and its business life. Surveys have shown a steadily-mounting check-clearance volume in the banks for a number of years. The solvency of the City government is shown by the ready sale, at all times, of the municipal bonds for street and utility improvements and for the construction of permanent municipal improvements.

The physical well-being of the city and its citizens is no less sound than any other part of its life. With the location 70 miles from the coast on North Carolina's temperate plains, the weather--wet or dry, hot or cold—is of the most healthful. Here, it is not a matter of how many days the sun shines each year, but whether it shines in proper proportion to the rainfall. The abundance and value of farm crops grown in the immediate vicinity is proof of ideal weather and climate.

Two modern hospitals, staffed by some of the country's most eminent physicians, surgeons and specialists, are here to serve the citizens of the area. More than 30 doctors and dentists reside and practice in the city, thereby making Kinston the medical center of eastern North Carolina. A well-organized public health program is carried on at all times to make for cleanliness and the eradication and treatment of diseases. A second public clinic is soon to be established to combat another of civilization's most deadly ailments. The Caswell Training School, the State's largest institution for the care of mental deficients, is located near the city.

Shirt Manufacturing in Kinston

Kinston has the unique distinction of a perpetual artesian water supply coming from deep wells that provide water of the purest content east of the Rocky Mountains and is entirely untreated. The supply is unlimited for industrial and commercial use, as well as for home consumption.

During World War II, Kinston became the official "leave town" for the personnel of the U. S. Marine Corps at Camp Lejeune. Thousands of Uncle Sam's "Leathernecks" have become enthusiastic visitors to, and boosters of, Kinston. Many of them married here and have chosen Lenoir County as their permanent home. Kinston citizens are a friendly people, ever anxious to share their goods and services with the stranger within the city's gates. Kinston extends a cordial invitation to home-seekers, industrialists, retail traders, and men and women of all vocations to come here for a day, a year, or a century.

OUT OF BUSINESS!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

WHY A *Buyers' Guide?*

★ ***It is customary to include a Buyers' Guide in the City Directory because:***

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

☆

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . *EXTENDED*

Vital Information at Your Finger-tips!

Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. *In addition,* Directory usage is **up** among regular subscribers.

CAUTION . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

WHY A *Buyers' Guide?*

★ **It is customary to include a Buyers' Guide in the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . *EXTENDED*

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1951

Copyright, 1951, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order, followed by the named streets arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The △ preceding names denotes houses and places of business having telephones.

Figures in parenthesis denote old numbers.

(c) denotes colored.

KNOW YOUR DIRECTORY

HOW TO KNOW WHETHER A WIFE IS EMPLOYED . . . *AND WHERE SHE WORKS*

This vital information may be secured instantly from your City Directory. Every person of Directory listing age (18 years and over) is listed, including both men and women. The wife is listed with her husband, and also is listed separately if steadily employed.

MORE GOODS
ARE BOUGHT AND SOLD

CLASSIFIED BUSINESS LISTS

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
